

Blue = Matt

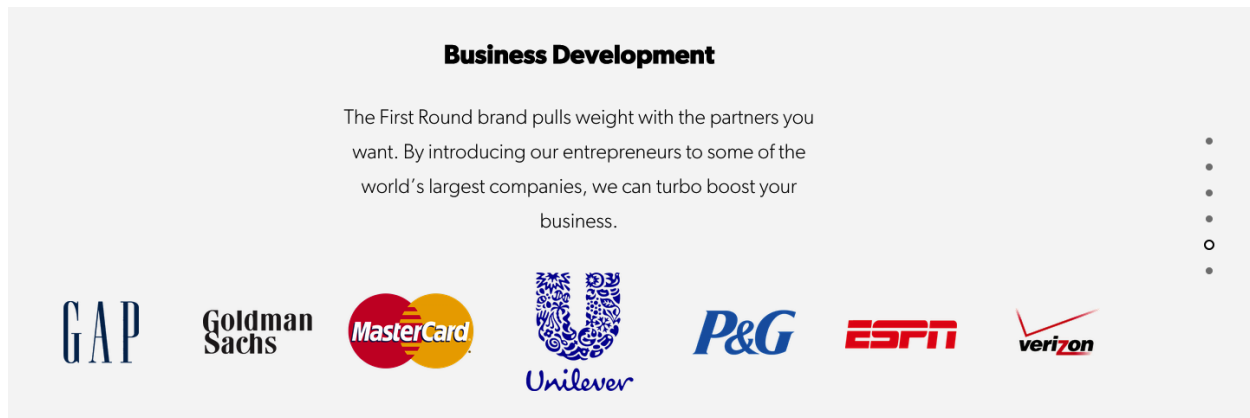

To-Do for Homepage:

1. Change the navigation bar to white and take off the logo and instead put the text VOYAGER CONSULTING so it looks clearer

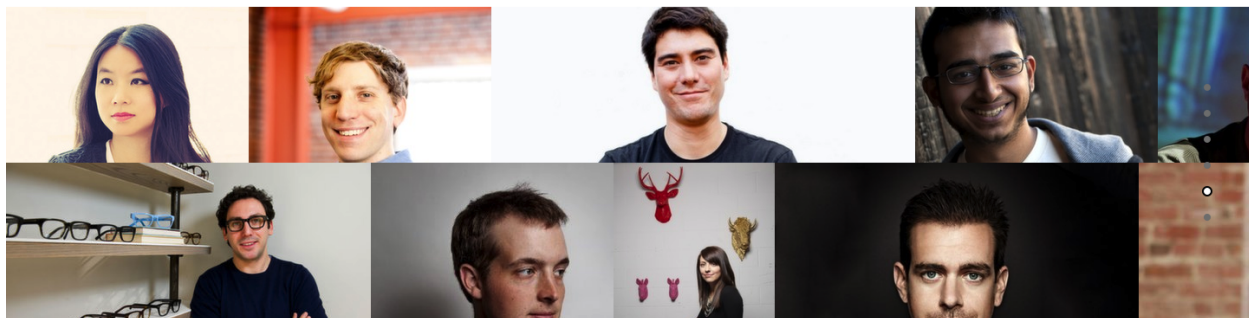

Tried before, doesn't look good with the current theme. The current theme is dark and doesn't blend with a white navbar.

2. Implement something like this with our clients one side and the link there

3. A setup such as these to showcase alumni and text about how we contribute to our alum's success and how they give

4. A group line of consultant and leadership photos that link to the leadership tab

5. Signup form for emails; look for plug ins - check out this <http://www.dsp-rho.com/pre-registration>
